

A real workhorse in emergency lighting systems. These durable, reliable units are paralleled in performance and freedom from maintenance. This unit provides a low cost, solid-state lighting system for application in commercial, industrial or multi housing environments.

RATING

- 2X5W
- 90 Minute battery
- 120V 60Hz

Mounting:

The back mounting plate is made of injection molded thermoplastic. It has a molded in universal J-Box mounting pattern and keyhole slots. The main housing snaps on to the
Heads: Two attractive square shaped heads with rounded corners are adjustable allowing the end

Electrical / Battery:

- Dual voltage input 120/277 VAC, 60 Hz.
- Maintenance free, Sealed Lead Calcium 6V, 4.2 AH battery with a maximum full recharge time of 48 hours. Minimum 1 ½ hour emergency operation.
- Low voltage disconnect of the battery prevents deep discharge and maintains good battery life.
- Fully automatic, solid state charger.
- Test switch with LED charge indicator/AC voltage indicator.
- Line latching feature prevents the unit from turning on during installation to a nonenergized

AC circuit. Saves labor since the installer does not have to return to connect the battery terminals once the building is energized.
